DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9, 11-18, 20 and 21 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art alone or in combination discloses, per claim 1, "a first current source operative to generate a first current, the first current source having a first temperature coefficient and comprising a transistor coupled to apply a gate source voltage difference on a first resistive element to generate a compensation current; an output current mirror operatively coupled to mirror the first current and to generate a second current in response to the first current."

Per claim 11, none of the prior art alone or in combination discloses "generating a first current with a current source having a first temperature coefficient whereby a first gate-source voltage difference is applied to both a transistor and a first resistive element; mirroring the first current and generating a second current in response to the first current; and providing a reference voltage in response to the second current; and shunting a current with a shunting device, which has a second temperature coefficient the same as the first temperature coefficient and which is coupled in parallel with the second current."

Per claim 20, none of the prior art alone or in combination discloses "a first resistive element; a PMOS transistor coupled to apply a gate-source voltage difference on the first resistive element to generate a first current; a current mirror for mirroring the first

current to generate a second current; a second resistive element coupled to be applied with the second current to thereby generate a reference voltage; and an NMOS transistor connected to the second resistive element in parallel for compensating a variation of the gate-source voltage difference."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
